JUDGING DAY IS THURSDAY, MARCH 12TH.
LEARN MORE & SIGN UP AT SARSEF.ORG/JUDGES/

When you judge at SARSEF Science and Engineering Fair, you make students proud of their science. Your involvement shows them that there are people out there who really care about their work.

Qualifications range from being a professional in your field if you judge at the high school level to having a high school degree and an interest in the field if you judge elementary school projects.
