

Tucson Testers Data Sheet- Activities During Social Distancing

Thank you for supporting our What Do You Wonder Young Scientists

The Tucson Testers (PreK-2 graders) appreciate your time and energy in helping them answer their question: How does social distancing change our daily activities?

Print the following three data sheets. Please keep track of your activities by making a mark in the correct time box each time you participate in an activity. For example, if you watch television from 9:30a.m. to 10:30a.m., you would put a mark in the 8:00a.m.-10:00 a.m. box AND also a mark in the 10:00a.m.-12:00p.m. box. **Do this for 3 days.** When you have completed recording your data, please go to the data submission [link](#) and report your results with SARSEF's Tucson Testers!

Thank you!
