

Thank you for supporting the curiosity of the WASH STARS Lab Group. These young scientists (grades PreK-2nd) want to know: How has the Coronavirus outbreak affected your hand washing habits? Please answer hand washing questions 1-5 once. Then use the data collection sheet on the next page to record your hand washing activity for **THREE DAYS**. When you have completed recording your data, please go to the data submission [link](#) and report your results with SARSEF's WASH STARS! Thank you!

Hand washing Questions. Circle One Answer for Each Question

<p>1. Do you use soap when washing hands?</p> 	<p>Yes</p>	<p>No</p>
