Job Title: Education Outreach Intern  
Reports to: Chief Program Officer  
Status: Paid Internship

Job Summary
With SARSEF, every Arizona student has the opportunity to discover their potential as a scientist or engineer solving problems big and small. SARSEF uses a comprehensive programming model that supports students, teachers, and families so that students can think critically and solve problems through science and engineering. We couldn’t be successful without an impactful educational outreach program.

As SARSEF’s Education Outreach Intern, you will be trained on and deliver SARSEF programming. Training will focus on classroom management skills and how to model guiding students through the research process for participating teachers.

Through in-school, hands-on workshops, you will challenge students to notice and wonder about the world around them, leading to an investigation of real-life problems and finding solutions that matter. Specific efforts will focus on Pre-Kindergarten through 8th grade students at Title I schools who are underrepresented in the fields of STEM.

We are looking for high energy applicants who are willing to learn and practice educator skills in science/engineering practices and classroom management. Communication skills, creativity, comfort speaking to different-sized groups, and flexibility to match school day and nighttime schedules are necessary. Reliable transportation is required.

Ability to collaborate with others is a must!

Job Responsibilities Include
- Be energetic and highly motivated to work with students, teachers, and parents in a variety of learning settings both in and out of the classroom
- Work with individual schools to deliver tailored, in-school workshops to elementary and/or middle school level students as well as teachers and parents as needed
- Assist in delivery of science and engineering evening parent workshops
- Be willing to assist SARSEF Team with tasks associated with other SARSEF Programs and Events
Basic Requirements
- Working toward Arizona Department of Education Teaching Certificate
- Must pass a Pima County fingerprint clearance

Compensation
The pay rate for this internship is $15/hour for 10-15 hours a week from September 1, 2021 through May 15, 2022. Flexibility is available to accommodate times of higher course loads and school breaks.

To Apply
Send a cover letter and resume to director@sarsef.org. In your cover letter, please include relevant background on previous educational experience.
