Registration for SARSEF Regional Fair

The following information is required for projects selected for SARSEF. **Registration will be submitted through the online form,** however this may be used to gather the needed information before beginning the registration process. If a school requires parent permission, an **optional signature** line is included at the end.

In the final step of the online registration, you will upload the project (required), journal excerpts, SRC forms, and/or research paper (optional).

School Information

You will need to select your school from a dropdown menu on the online form. If it does not appear there, you will need to follow the link given on the form to register your school in our system and request a project allocation. Preschools and High Schools have unlimited allocation, however, still must be registered in our system. Homeschool students should still register their household in the system. You may email director@sarsef.org with questions.
